My Dearest

How sweet of you to
accept my "don't feed
the man at the wheel!"

Yes. I always remember
the French Masters you took
me to see at the Guildhall,
& the policeman who "took
up up!"

No, dearest? I don't
think you want to be made
much of - I have not -

worked 26 years with you
for nothing. We are both
content with the work, +
greatly promoted to be
doing a big thing for our
country.

Also, I have always admired
how sweetly all things have
gone both in your own
home & in the office - You
know you give your
friends things to live up to?
but I don't think for 4

I believe it is the overstrain
of the brain from which we
are all suffering.

Miss Percival - Do better
by all means if we can.

I don't know the way
but - something may turn
up.

Something led to call at
Miss Percival's works. + I said
at last 'Would any of you
like to have such work?

Miss Peasey "I should
just love it" -

You know a Senior Minister
does not take a first post -

The post she fills here is
more difficult + responsible

+ requires more tact +
strength than any likely
to follow it. She has
filled it admirably.

you, dear? I shall not
sanguine about his because
I am sure your decision
will be right - If only
you had any one to decide

from a bad break down.
& she has no qualification

Dearest;

I have spoken to Miss Peacey
about the matter today for
the first time telling her that it
was in your hands. Her reply
was - "I should just love to take
it" & her bright enthusiastic
look was rather delightful.
I told her there would no doubt be
difficulties, & had work but she
did not seem dismayed at all.

What do you think?

We should not get either of the
Butler, or the Frost, I am quite
sure. I am not sure that we
should get anyone better anywhere
than this place.

She has a good manner,
dresses pleasingly, writes a
good letter, has our principles
at ~~her~~ ^{her} finger's ends is heartily
enthusiastic about the work.

The fact of her missing a year
in her training & then
coming back to finish

has brought her in contact
with our work in an un-
usual way.

She has visited some of the
Strand Schools & is very keen
about P.N.U. in them.

We have found her very business-
like & successful as Senior

Monitor - a rather difficult
position as you know, requiring
 tact.

I feel as if there were lots
more to say, but the chief

King's her own enthusiastic
 desire for this piece of work.
 She could join this Wix
 (this Wix's)
 immediately on her return
 to about the school with
 her which would be a sort
 of training.

Now are you not really relieved
 to have the prospect of
 delighted writing work from
 a student who needs no
 persuasion!

I have called on this Place
 now often to speak when

visitors have been here & the
like & she is perfectly ready
& simple & always speaks to
the point.

But I dare say my writing is
labour in vain because you
may have thought of just the
right person.

Could you possibly let us
hear at once because we
go on Friday 9th. There's
a holiday engagement &

other complications
depending on your answer.

I am getting quite
ready to go away, when

Yes, dearest. I feel I have
shouldered a heavy responsibility
in venturing to urge Miss Eacey.
But I think she is a strong
person + quite straight + simple-
minded. + then it was 9 years

My notion was that she should
join Miss Wil in Sept. - to come
as she returns, + go about to
schools with her during the month
but - then, there is the expense of
journeys + keep-!

I think that would be a useful
 bits of training - she speaks well
 & convincingly, because she is
 not very urgent.

We are sleeping here on our
 way to Langfammars. The
 railway stations seem very
 quiet - almost deserted - surely
 a bad omen.

I sent your telegram on to Mrs

to her about typic. writing, voice
production, shorthand etc.

I doubt if any old student
would wish to undertake a
second training of a sort
which would stand in
the way of her doing the
work she cares for.

But - I don't - suppose
anywhisper of that sort
